(For each of the checked box(es) above, please describe below the issue and detailed description of the discussion)

Claim(s) discussed: 141, 165 and 169.

Identification of prior art discussed: Life Technologies, "GIBCO BRL Product Catalogue and Reference Guide 1995-1996," pages 14-2, 14-3, and 14-4.

#### Substance of Interview

(For each issue discussed, provide a detailed description and indicate if agreement was reached. Some topics may include: identification or clarification of a reference or a portion thereof, claim interpretation, proposed amendments, arguments of any applied references etc...)

Dr. Aumais authorized an Examiner's Amendment that would place the claims in condition for allowance and whereby claim 141 would be amended to recite the limitation that a "highlight fragment" would not be present; and claims 165 and 169 would be amended so to clarify how many fragments and from which groupings, are to be present and also how the relative mass was to be calculated.

**Applicant recodation instructions:** It is not necessary for applicant to provide a separate record of the substance of interview.

**Examiner recodation instructions:** Examiners must summarize the substance of any interview of record. A complete and proper recodation of the substance of an interview should include the items listed in MPEP 713.04 for complete and proper recodation including the identification of the general thrust of each argument or issue discussed, a general indication of any other pertinent matters discussed regarding patentability and the general results or outcome of the interview, to include an indication as to whether or not agreement was reached on the issues raised.
